THE valley Bulletin locates Geo. H. Stevens in Washington Territory, where it says, he has gone to spend a few weeks.

THE loan to be proposed in the Reichstag, and which is to be used mainly for naval and military purposes, will, it is said, amount to 250,000,000 marks. No end as yet to huge armaments, or to the burdens which they imply.

STILL another editor has caught on—the junior editor of the Globe Silver Belt. The administration evidently wants to stand in with "them literary fellows." The DAILY EPITAPH extends a chunk of congratulations for the Globe man to chaw on.

SECRETARY BLAINE'S address to the delegates to the Pan-American Congress is universally praised as a masterly effort, and has done more than anything else to wake up the European nations to a sense of the importance of the congress. The address stamps our Secretary of State as a statesman of the first class.

WE are in receipt of the letters written by Colonel J. A. Zatriskie from Mexico to the Tucson Star, which have been printed in book form. They are very interesting, and being the observations of an educated and gifted gentleman, who wields a facile pen, and who was favored with unusual facilities for investigating the subjects on which he writes, these letters make an entertaining and instructive volume.

It is a strong proof of Secretary Tracy's good sense and his intention to run the Navy Department on business principles that he has accepted the Baltimore, although she falls below the horse power requirements of the contract 22.12 horse power. She is a handsome, strong and remarkably fast vessel, which will be a credit to our new navy. Good, sound, horse sense such as this will never be hampered by blind attention to foolish technicalities.

THE situation in Europe is again becoming critical, although that is somewhat of a chestnut. The alliance between France and Russia doesn't suit Germany and Austria, and efforts are being made to induce the Czar to withdraw and let France paddle her own canoe. Why can't Europe be sociable, like the Americas, and all get together and see what can be done to help each other, instead of eternally getting ready to cut each other's throats. Secretary Blaine can give the much vaunted premiers of Europe some points regarding the management of international affairs.

SPECIAL TO THE DAILY EPITAPH

To Investigate the Attempt at Jury Fixing.

CHICAGO, Oct. 12.—Judge Harlan has issued a venire for a special grand jury to investigate the attempt at jury fixing in connection with the Cronin case, and jurors summoned are now assembling in the court room. Ex-Mayor Roche is among the grand jurors and will be foreman of that body. Al Hanks and Mark Solomon, criminal court bailiffs, are under arrest charged with an attempt to pack the jury. They have been discovered in the attempt to corrupt. A venire has been summoned to Judge McConnell's court and instructed those favorable to the prisoners how to answer questions to the States attorney in order to be retained as jurors. Neither an Irishman but that they have been active agents for the defense is almost certain. Judge McConnell convened his court at the appointed time this afternoon to proceed with the Cronin trial, but immediately adjourned until Monday. He announced that the States attorney has declared that the case could not proceed to-day without injury to the public interests.

The special grand jury after being in session a short time summoned seven witnesses, and among the seven were two venire men who had been possible Cronin jurors though not yet been examined in court. It is reported these two men were approached among others by the two bailiffs now under arrest. The latter have been doing duty as guards to Kunz and O'Sullivan, the Cronin suspects. They have been sitting directly behind the prisoners every day in court since the beginning of the trial.

## Washington News.

WASHINGTON, Oct. 12.—President Harrison to-day appointed John W. Blackburn, of Utah, Associate Justice of the Supreme Court of Utah.

The Knights Templar have broken ranks. Thousands went to Mount Vernon to-day while other thousands scattered through the city. The Grand Encampment to-day suspends Eminent Commander Oleott of the District of Columbia for a year, for having illegally knighted Wm. Oscar Roome. The latter's election was declared illegal. The Grand Master announced the appointments. Banquets were given this evening by the committee. Many Knights left for home this evening.

## Railroad Matters.

BOSTON, Oct. 12.—The Atchison directors at their meeting to-day adopted the plan of reorganizing. It was stated at the Atchison office that the plan contemplated will not be made public until next Wednesday.

## "Oklahoma Harry" Seriously Hurt.

WICHITA, Kas., Oct. 12.—Henry Hill, one of the most noted original Oklahoma boomers and known as "Oklahoma Harry," was struck on the head by Geo. Morgan with a paper weight yesterday during a quarrel, and it is doubtful if he can recover.

## The Yaqui War.

SAN FRANCISCO, Oct. 12.—The Examiner's special from El Paso says, that in Sonora, Mexico, the soldiers were completely routed; the Yaquis caught them in the morning and slaughtered all of them. The government has sent for one thousand men to fight them.

## Cleveland Declines.

NEW YORK, Oct. 12.—An evening paper says: "Taftman offered to nominate ex-President Cleveland for Congress in the 9th District to succeed S. S. Cox, but Cleveland declined." The same paper says Andrew J. Samminglow is slated for the position.

## The Electric Light Companies and Mayor Grant.

NEW YORK, Oct. 12.—Mayor Grant this morning held a meeting of the board of electric control, and resolutions were adopted ordering the immediate removal of the electric light wires not properly insulated. Before the work of removal could be begun a temporary injunction was served on the Mayor restraining him from interfering with the wires of either the United States Illuminating Co., or Brush Electric Light Co. An interview with Edison is printed this afternoon which says: "No insulating will make electric wires safe, and that subwire and insulation will alike prove ineffective, and that the only way to regulate the pressure is the same manner as the pressure of steam boilers are regulated."

## A Conspiracy Unearthed.

CHICAGO, Oct. 12.—States attorney Longnecker this afternoon authorized one of his colleagues to give the following brief outline of one of the boldest conspiracies ever unearthed in this city. The plot was this: "Men were to be bribed and to swear under oath that they would stick it out for the acquittal, when the jury in the Cronin case went out to finish its verdict. Five thousand dollars was offered to any one to do this. It was found that the plot was wide spread and included many well known men. One of the bailiffs who conducted the business for the defendants has made a confession which not only involves himself but many more. Some are tests have already been made but more will follow to-day and to-morrow."

Wilson of Allens Springs, Ill., who is over sixty years of age, says: "I have in my time tried a great many medicines, some of excellent quality; but never before did I find any that would so completely do all that is claimed for it as Chamberlain's Colic, Cholera and Diarrhea Remedy.
